Volvo On Call*

Volvo On Call provides direct contact to the car as well as extra comfort and assistance 24 hours a day.

The functions are available via the **Volvo On Call app**¹ as well as the **ON CALL** button and the **SOS** button in the car's roof:

For example, you can lock or unlock the car or check the fuel level directly on a phone via the Volvo On Call app. If an accident occurs, emergency assistance can be sent to the car in the form of e.g. ambulance and police, and roadside assistance can be called for less urgent problems, such as a puncture.

¹ App functions vary between markets.

² The services vary between markets.

i NOTE

The **SOS** button must only be used in the event of accident, illness or an external threat against the car and its passengers. The **SOS** function is only intended for emergency situations.

The **ON CALL** button can be used for all other services², including roadside assistance.

Volvo On Call system

Volvo On Call is linked to the car's safety and alarm systems as well as other systems in the car, such as locking and climate control. The car has a built-in modem for communication with a Volvo On Call service centre and the Volvo On Call app. GNSS (Global Navigation Satellite System) is used to locate the car.

Service Centre

To contact a Volvo On Call service centre, use the car's **ON CALL** button or the Volvo On Call app. You can also call a Volvo On Call service centre.

Getting started with Volvo On Call*

This article describes what you need to get started with Volvo On Call.

Activation of Volvo On Call

When the car is collected, the retailer activates the Volvo On Call system and the owner receives an automatically generated PIN code for Volvo On Call. This PIN code is used for security reasons to identify the owner of the car (or another approved person such as a family member) and works like a car key.

Volvo On Call subscription

The car must have a valid Volvo On Call subscription.

The subscription is initiated in connection with the purchase of the car when the system is activated. The subscription has a time limit but can be extended, and validity is market dependent. Contact a Volvo retailer for assistance.

NOTE

Automatic Crash Notification and the **SOS** button will work even without a subscription.

Volvo ID and connecting the Volvo On Call app to a car

A Volvo ID is needed to use Volvo On Call. After having created a Volvo ID, the Volvo On Call app needs to be connected to the car.

Buying a used car with Volvo On Call

When buying a used Volvo with Volvo On Call, it is important to delete data from the previous owner and add your own details to make the service work. Visit a Volvo retailer for assistance.

- Phone number for the Volvo On Call* service centre (p. 15)
- Comfort and control with the Volvo On Call app (p. 5)

Comfort and control with the Volvo On Call app

Volvo On Call users always have direct contact with their cars via the **Volvo On Call app**.

For example, it is possible to see whether bulbs need to be replaced or whether oil or coolant needs to be topped up. It is possible to lock and unlock the car, check the fuel level and show the nearest petrol station. Preconditioning³ can also be set via the car's parking climate control.

Volvo On Call app is updated regularly. Up-to-date information on available functions for different car models can be found at support.volvocars.com.

The Volvo On Call app is available for iOS, Android and Windows Mobile. Download it free-of-charge from Apple AppStore, Google Play or Windows Phone Store.

Help with Volvo On Call*

Volvo On Call can provide extra security and assistance if you have a puncture, your engine breaks down or you have an accident.

Volvo On Call not only offers additional comfort and control via the app, but also a range of auxiliary services via the **SOS** and **ON CALL** button on the roof, such as emergency assistance in the event of an accident, theft warning, roadside assistance and remote unlocking.

Automatic collision alarm with Volvo On Call*

If a collision occurs, the car reports this automatically to a Volvo On Call service centre, or closest emergency call centre, which can send out emergency assistance.

Volvo On Call Service Centre⁴

When the car's safety system is triggered, e.g. in an accident in which the activation level is reached for the seatbelt tensioner or airbags, a signal will be automatically sent to Volvo On Call Service Centre. The following will occur:

1. A message, including car position, is sent automatically from the car to a Volvo On Call service centre.
2. The Volvo On Call Service Centre then establishes verbal contact with the car's driver and tries to find out the extent of the collision and the need for help.
3. The Volvo On Call Service Centre then contacts the necessary assistance (police, ambulance, towing, etc.).

If verbal contact cannot be established, the Volvo On Call Service Centre contacts the relevant authorities that assist with appropriate action.

³ Cars without parking heater cannot have passenger compartment heating, but only ventilation.

⁴ Applies to Volvo On Call markets of type A.

Closest emergency call centre⁵

When the car's safety system is triggered, e.g. in an accident in which the activation level is reached for the seatbelt tensioner or airbags, a signal will be automatically sent directly to the closest emergency call centre. The following will occur:

1. The emergency call centre establishes verbal contact with the car's driver and tries to find out the extent of the collision and the need for help.
2. The emergency call centre sends the necessary assistance (police, ambulance, towing, etc.).

Emergency number

When the collision alarm is activated the system attempts to establish contact with the country's Volvo On Call service centre. If this is not possible, then the call is routed to the designated emergency number for the area where the car is located.

Emergency assistance with Volvo On Call*

Press the **SOS** button to contact a Volvo On Call service centre, or the closest emergency call centre in an emergency situation.

Volvo On Call Service Centre⁶

To summon help in case of illness, external threats to the car or passengers, a Volvo On Call service centre can be alerted manually by depressing the **SOS** button for at least 2 seconds. A Volvo On Call service centre is notified, advised of the car's position and attempts to establish verbal contact with the driver to agree on the type of assistance required.

If verbal contact cannot be established, the Volvo On Call Service Centre contacts the necessary assistance (police, ambulance, recovery, etc.) to help with the appropriate action.

⁵ Applies to Volvo On Call markets of type B.

⁶ Applies to Volvo On Call markets of type A

« Closest emergency call centre⁷

To summon help in case of illness, external threats to the car or passengers, the closest emergency call centre can be alerted manually by depressing the **SOS** button for at least 2 seconds. The necessary assistance (police, ambulance, towing, etc.) can be determined via verbal contact.

i NOTE

The **SOS** button must only be used in the event of accident, illness or an external threat against the car and its passengers. The **SOS** function is only intended for emergency situations.

The **ON CALL** button can be used for all other services⁸, including roadside assistance.

Emergency number

When the collision alarm is activated the system attempts to establish contact with the country's Volvo On Call service centre. If this is not possible, then the call is routed to the designated emergency number for the area where the car is located.

⁷ Applies to Volvo On Call markets of type B

⁸ The services vary between markets.

⁹ The services vary between markets.

Help during a trip with Volvo On Call*

If you have a puncture, run out of fuel or your battery is discharged, for example, you can summon assistance with the **ON CALL** button or the **Volvo On Call app**.

If the **ON CALL** button in the roof is held depressed for at least 2 seconds, verbal contact is established between a Volvo On Call service centre and the driver. This is to reach agreement on which type of assistance is required.

i NOTE

The **SOS** button must only be used in the event of accident, illness or an external threat against the car and its passengers. The **SOS** function is only intended for emergency situations.

The **ON CALL** button can be used for all other services⁹, including roadside assistance.

A separate subscription may need to be taken out for the roadside assistance service.

Remote unlocking and remote locking with Volvo On Call*

The car can be unlocked remotely via the Volvo On Call service centre. It can also be locked and unlocked using the **Volvo On Call app**.

Remote Door Unlock via a Volvo On Call service centre¹⁰

If the car's remote control key has been lost or locked in the car, it is possible to remotely unlock the car within the next 5 days assisted by the Volvo On Call service centre after the required verification with PIN code has been approved. Following which, the Volvo On Call Service Centre unlocks the car remotely according to agreement.

1. Contact a Volvo On Call service centre via the Volvo On Call app (or call with a phone).
2. When the Volvo On Call service centre has verified the car's owner or other authorised individual using the PIN code, an unlocking signal is sent to the car according to agreement.

3. Press gently once on the rubberised pressure plate underneath the boot lid/tailgate handle to unlock the car.
 - > Now all doors can be opened as normal.

i NOTE

If the rubberised pressure plate on the boot lid/tailgate is not depressed within a certain time, predetermined by a Volvo On Call service centre, the car will be locked again.

i NOTE

If, for example, the car is parked in a parking garage, the remote unlocking function may possibly be limited due to poor reception.

Locking/unlocking using the app

Status for all doors and windows is shown. The driver can lock and unlock the car remotely for up to five days after the car has been locked. For security reasons, a password is required for your Volvo ID when the car is unlocked via the Volvo On Call app.

¹⁰ Applies to Volvo On Call markets of type A.

- Volvo On Call* services per market (p. 14)

Theft Notification with Volvo On Call*

When the car's alarm is activated, the car owner receives a push message to the **Volvo On Call app** and a message to the phone number registered with the dealer.

If the alarm is not switched off within a short period, an operator at a Volvo On Call service centre is automatically alerted¹¹. The operator attempts to contact the car owner by phone. If it turns out that the car is being used by an unauthorised person, tracking can be started.

If the alarm is switched off using the remote control key, the service is cancelled.

¹¹ Does not apply to Volvo On Call markets of type B.

Stolen Vehicle Tracking with Volvo On Call*¹²

If car theft is suspected, contact a Volvo On Call service centre via the **Volvo On Call app** or a phone call to attempt to locate the car.

If theft or other unauthorised use of the car has been discovered, then the car's owner along with the police and the Volvo On Call service centre agree that the car should be traced. The Volvo On Call service centre sends a message to the car to determine the car's position. Following which, the police or other authority are contacted.

i NOTE

This also applies if the car was opened and stolen with the associated key.

Remote vehicle immobiliser¹³ with Volvo On Call*

If the car is stolen, an immobiliser can be activated remotely.

If the car has been stolen then the owner can contact a Volvo On Call service centre (via phone or the **Volvo On Call** app) or the authorities.

i NOTE

This also applies if the car was opened and stolen with the associated key.

After having been in contact with the authorities, the Volvo On Call service centre deactivates the remote control keys in order to prevent the car from being started. A deactivated car can only be restarted by contacting the Volvo On Call Service Centre and when the required verification with PIN code has been approved. Following which, the Volvo On Call service centre performs activation of the car.

Volvo On Call* availability

The Volvo On Call system's functions are available a certain time after the remote control key has been removed.

Once the remote control key has been removed from the car, the functions are available continuously for 5 days and then once per hour for the next 17 days. After these 22 days the system will be deactivated until the car is started¹⁵.

WARNING

The services only work in areas where the car has mobile coverage and in markets where the service is available.

Just as with mobile phones, atmospheric disturbances or sparse transmitter coverage may lead to connection being impossible, e.g. in sparsely populated areas.

Volvo On Call* abroad

Volvo On Call services may vary when driving between countries.

When you press the **SOS** button you are always connected to the Volvo On Call service centre in the market where the car is located. If there is no Volvo On Call service centre, the closest emergency call centre is contacted.

When you press the **ON CALL** button you are always connected to your home country's Volvo On Call service centre.

However, in countries without roaming agreement, there are no Volvo On Call services available.

For more information, contact a Volvo dealer.

PIN code for Volvo On Call*

For security reasons, a PIN code is used to identify that a person is authorised to perform Volvo On Call services in a certain car.

The four-digit PIN code, which is sent to the car owner when the dealer activates the subscription, is used for security reasons to identify the persons authorised to perform certain Volvo On Call services, e.g. unlock the car via the Volvo On Call service centre¹⁶ or create an account for the Volvo On Call app.

Forgotten or change of PIN code

If the PIN code has been forgotten or needs to be changed (e.g. when buying a used car with Volvo On Call) contact

- a dealer or
- Volvo On Call service centre¹⁶ via the **ON CALL** button, **Volvo On Call app** or normal telephone call.

The new code is sent to the car owner.

Incorrect PIN code has been entered for the app repeatedly

If an incorrect PIN code has been entered ten times in a row, the account will be locked. A new PIN code must be selected in order to be able to use the app again and a new app account created by following the same process as when the app account was created earlier.

- Changing owner for cars with Volvo On Call* (p. 18)

Changing owner for cars with Volvo On Call*

After changing owner, it is essential to cancel the Volvo On Call service.

Closing the Volvo On Call service

Contact a Volvo retailer in the event of change of ownership in order to close the service. The retailer cancels the subscription and deletes the service history. The service can also be closed using the Volvo On Call app.

In the event of change of ownership it is important to reset personal settings and user data in the car to the original factory settings. This is performed via the settings menu in the centre display.

Starting the Volvo On Call service

Buying a used car with Volvo On Call:

The new owner contacts their Volvo retailer, who transfers the time remaining on the subscription to the new owner. It is important that the contact details are updated for Volvo On Call to work and that the previous owner does not have access to Volvo On Call services in the car. The new owner is given a personal four-digit PIN code, which is required to identify themselves as the owner (or another authorised person) and gain access to certain services.

¹⁶ Does not apply to Volvo On Call markets of type B.

Standby battery for Volvo On Call*

If the car is unpowered, the main battery is replaced by the Volvo On Call standby battery. The standby battery has a limited service life. When the battery needs service or replacement, a message, **Volvo On Call Service required**, is shown in the driver display.

If the message remains, contact an authorised Volvo workshop.

Hungary	Volvo Autó Hungária Kft.
Austria	Volvo Car Austria GmbH

Purpose of the data processing

Personal data are used by Volvo with cooperating partners, both within and outside the EU/EEA, in order to provide and develop the service.

What personal data are processed?

The personal information that is processed with regard to Volvo On Call comprises mainly of the following three categories.

- Personal data that the customer provides in connection with activation of the Volvo On Call and in other contacts with Volvo such as

name, address, phone number, type of service and its duration.

- Information is sent automatically from the vehicle when a certain event covered by Volvo On Call occurs. This type of message contains vehicle ID (VIN), the time when the service is used, type of service, whether the airbags have been deployed, whether the seatbelt tensioners have been deployed, current amount of fuel, current temperature inside and outside the vehicle, whether doors and windows are locked or opened as well as the vehicle's last six locations.
- Other information that can be linked to the customer includes phone calls with people in the vehicle, the service centre that supplied the service and records created by the service centre operator.

Who may have access to the personal data?

Volvo uses subcontractors in order to provide the service. These subcontractors work on behalf of Volvo and may only process personal data to the extent required in order to provide the service. All subcontractors are bound by agreements requiring them to observe confidentiality and to treat personal data in accordance with current legislation.

Screening procedures

The personal data required to supply the Volvo On Call service are stored during the agreement

period and thereafter for as long as required in order for Volvo to fulfil its obligations in accordance with the law and other statutes. Data generated during events covered by Volvo On Call are deleted three months after the event occurred.

Correction and extracts from the register

Private individuals are entitled to request that inaccurate information be corrected and to obtain extracts from the register that show what personal data are being processed. To correct personal data, please contact Volvo's customer service. A request for an extract from the register must be made in writing and be signed by the applicant, and include information on name, address and customer number. The request must be sent to Volvo Personvagnar AB, Data Protection Officer, Dept. 50090, HB3S, 405 31 Göteborg, Sweden.

Consent to the processing of personal data

By activating the subscription in accordance with what is stated in the instructions in this document, the user agrees to the processing of personal data that is carried out in connection with the Volvo On Call service.
