Volvo On Call

Volvo On Call provides direct contact with the vehicle and extra comfort and assistance 24 hours a day.

The functions are available via the **Volvo On Call app**¹ and the **ON CALL** and **SOS** button in the vehicle's ceiling console:

It is possible to e.g. lock or unlock the vehicle or check the fuel level directly from a phone or other connected device via the Volvo On Call app. In the event of an accident, emergency assistance (ambulance, police, etc.) can be summoned to the vehicle, and roadside assistance can be called out in less critical situations, e.g. a flat tire.

i NOTE

The **SOS** button should only be used in case of accident, illness or if there is an external threat to the vehicle and its passengers. The **SOS** function is only intended for emergency situations.

The **ON CALL** button can be used for all other services, including roadside assistance.

The Volvo On Call system

Volvo On Call is connected to the vehicle's safety and alarm systems and to other systems in the vehicle, such as lock and climate systems. The vehicle has an integrated modem for communication with the Volvo On Call customer service center and the Volvo On Call app. The Global Navigation Satellite System (GNSS) is used to locate the vehicle.

Customer service center

To contact the Volvo On Call customer service center, press the **ON CALL** button or use the Volvo On Call app. You can also call the Volvo On Call service center by phone.

¹ App functions vary from market to market.

Getting started with Volvo On Call

This article describes what is required to get started with Volvo On Call.

Activating Volvo On Call

When the vehicle is picked up, the retailer will activate the Volvo On Call system and the owner will receive an automatically generated PIN code for Volvo On Call. The PIN code is used for security reasons to identify the owner of the vehicle (or another authorized person such as a family member) and works as a vehicle key.

Volvo On Call subscription

The vehicle must have a valid Volvo On Call subscription.

A free subscription is initiated when the vehicle is purchased and the system is activated. This subscription is valid for a limited time, but can be extended. Contact your Volvo retailer for more information.

NOTE

Automatic Crash Notification and the **SOS** button function even without a subscription.

Volvo ID and connecting the Volvo On Call app to the vehicle

A Volvo ID is required to use Volvo On Call. After creating a Volvo ID, the Volvo On Call app must be connected to the vehicle.

Buying a pre-owned vehicle with Volvo On Call

If you have purchased a pre-owned Volvo with Volvo On Call, it is important to delete the data from the previous owner and add you own details for the service to work. Visit a Volvo retailer for assistance.

- Change vehicle owner with Volvo On Call (p. 15)
- Phone number to the Volvo On Call customer service center (p. 12)
- Comfort and control with the Volvo On Call app (p. 5)

Comfort and control with the Volvo On Call app

Volvo On Call users always have direct contact with their vehicle via the **Volvo On Call app**. These functions can provide information such as if a light bulb needs to be changed or if oil or coolant needs to be filled. You can lock and unlock the vehicle, check the fuel level and find your nearest service station. Preconditioning² via the vehicle's parking climate can also be set.

The **Volvo On Call** app is continuously updated. See support.volvocars.com for current information on available functions for specific vehicle models.

The Volvo On Call app is available for iOS, Android and Windows Mobile. Download it free of charge from the Apple Appstore, Google Play or Windows Phone Store.

Assistance with Volvo On Call

Volvo On Call can provide extra security and assistance in the event of a flat tire, breakdown, accident, etc.

Volvo On Call not only offers extra comfort and control via the app, but also a number of assistance services via the **SOS** and **ON CALL** button in the ceiling, such as emergency assistance in the event of an accident, theft notification, help during a trip and remote unlock.

Automatic Crash Notification with Volvo On Call

In the event of a collision, the vehicle can automatically notify the Volvo On Call customer service center, or the nearest emergency service center, which can then summon emergency assistance.

Volvo On Call Customer service center

If the vehicle's safety system is triggered, e.g. in an accident in which the activation level is reached for the belt tensioners or airbags, a signal will be automatically sent to the Volvo On Call customer service center. The following will occur:

1. A message, including the vehicle's location, is automatically sent from the vehicle to the Volvo On Call customer service center.
2. The Volvo On Call customer service center will then attempt to establish voice contact with the driver to determine the extent of the accident and the need for assistance.
3. The Volvo On Call customer service center will then contact the appropriate emergency service (police, ambulance, tow truck, etc.).

If voice contact cannot be established, the Volvo On Call customer service center will contact emergency services for appropriate action.

Emergency number

When the collision alarm has been activated, the system will attempt to establish contact with the country's Volvo On Call customer service center. If this is not possible, the call will go directly to the emergency phone number for the country/region in which the vehicle is currently located.

- Remote immobilizer with Volvo On Call (p. 9)
- Volvo On Call abroad (p. 11)

² Vehicles without a parking heater can only have ventilation, not passenger compartment heating.

Emergency assistance with Volvo On Call

In the event of an emergency, press the **SOS** button to contact the Volvo On Call customer service center, or the nearest emergency service center.

Volvo On Call Customer service center

To call for help in case of illness or an external threat to the vehicle or passengers, the Volvo On Call service center can be alerted manually by pressing and holding the **SOS** button for at least 2 seconds. The Volvo On Call service center is notified, determines the vehicle's position, and tries to establish verbal contact with the driver to find out what type of help is needed.

If voice contact cannot be established, the Volvo On Call customer service center will contact the required emergency service (police, ambulance, tow truck, etc.).

Emergency number

When the collision alarm has been activated, the system will attempt to establish contact with the country's Volvo On Call customer service center. If this is not possible, the call will go directly to the emergency phone number for the country/region in which the vehicle is currently located.

Help during a trip with Volvo On Call

If you e.g. get a flat tire, run out of gas or have a dead battery, you can summon assistance using the **ON CALL** button or the **Volvo On Call app**. Press and hold the **ON CALL** button in the ceiling for at least 2 seconds to establish voice contact with the Volvo On Call customer service center. The operator will consult with the driver to determine what type of emergency assistance is needed.

NOTE

The **SOS** button should only be used in case of accident, illness or if there is an external threat to the vehicle and its passengers. The **SOS** function is only intended for emergency situations.

The **ON CALL** button can be used for all other services, including roadside assistance.

Remote Door Unlock and Remote Door Lock with Volvo On Call

The vehicle can be remotely unlocked via the Volvo On Call customer service center. It can also be locked and unlocked using the **Volvo On Call app**.

Remote unlock via the Volvo On Call customer service center

If the vehicle's remote key has been lost or locked in the vehicle, the doors can be unlocked remotely within 5 days with assistance from the Volvo On Call customer service center after the owner's identity has been verified by his/her PIN code. Upon agreement with the owner, the Volvo On Call customer service center can then remotely unlock the vehicle.

1. Contact the Volvo On Call customer service center using the Volvo On Call app (or call by phone).
2. After confirming that the caller requesting the remote unlock is the vehicle owner or another authorized person by verifying the PIN code, the Volvo On Call customer service center will send a signal to unlock the vehicle.

3. Press lightly on the rubberized pressure plate on the underside of the trunk lid/tailgate handle to unlock the vehicle.
 - > All doors can now be opened normally.

i NOTE

If the rubberized pressure plate on the trunk lid/tailgate is not pressed within the time set by the Volvo On Call customer service center, the vehicle will be relocked.

i NOTE

If the vehicle is in a parking garage or similar enclosed area, the remote unlock function may be limited due to poor signal reception.

Locking/unlocking using the app

The status of all doors and windows will be displayed. The driver can remotely lock and unlock the vehicle for up to five days after the vehicle has been locked. For security reasons, your Volvo ID password is required to unlock your vehicle using the Volvo On Call app.

Related information

- Theft notification with Volvo On Call (p. 9)
- Remote immobilizer with Volvo On Call (p. 9)

Theft notification with Volvo On Call

When the vehicle's alarm is activated, the vehicle owner will receive a push notice from the **Volvo On Call** app and a message to the phone number registered with the retailer.

If the alarm is not switched off within a short period of time, an operator at the Volvo On Call customer service center will be automatically notified. The operator will attempt to contact the vehicle owner by phone. If it turns out that the vehicle is being used by an unauthorized person, tracking can be started.

If the alarm is turned off using the remote key, the service will be interrupted.

- Help during a trip with Volvo On Call (p. 7)
- Remote Door Unlock and Remote Door Lock with Volvo On Call (p. 8)
- Remote immobilizer with Volvo On Call (p. 9)

Remote immobilizer with Volvo On Call

If the vehicle is stolen, an immobilizer can be activated remotely.

If the vehicle has been stolen, the owner can contact the Volvo On Call customer service center (by phone or via the **Volvo On Call** app) or the authorities.

NOTE

This applies even if the vehicle has been opened and stolen using the associated remote key.

After consulting with the authorities, the Volvo On Call customer service center can deactivate the remote keys to prevent the vehicle from being started. A deactivated vehicle can only be started by contacting the Volvo On Call customer service center and after authorization has been verified using your PIN code. The Volvo On Call customer service center will then reactivate the remote keys.

Customer service via Volvo On Call

Press the **ON CALL** button for answers on general customer questions.

The **ON CALL** button can be used to contact the Volvo On Call customer service center for questions concerning vehicle usage. Operators are available for assistance 24 hours a day.

Related information

Volvo On Call Availability

The Volvo On Call system's functions are available for a certain period of time after the remote key has been removed from the vehicle.

When the remote key is removed from the vehicle, the functions will remain available for 5 full days and then once an hour for the next 17 full days. After 22 full days from the time the remote key was removed, the system will switch off and remain off until the engine is started³.

WARNING

The system only functions in areas where the vehicle has adequate cellular coverage and on markets where the service is available.

Just as with cellular phones, atmospheric disturbances or areas with fewer transmitters, e.g. sparsely populated rural areas, can make connection impossible.

Related information

- Backup battery for Volvo On Call (p. 16)
- Volvo On Call abroad (p. 11)

³ The availability of the function may vary.

Volvo On Call abroad

Volvo On Call services may vary when driving in other countries.

When you push the **SOS** button, you will always be connected to the Volvo On Call customer service center for the market in which the vehicle is currently located. If there is no Volvo On Call customer service center, the nearest emergency service center will be contacted.

When you press the **ON CALL** button, you will always be connected to your home country's Volvo On Call customer service center.

However, Volvo On Call services will not be available in countries without roaming agreements.

For more information, please contact a Volvo retailer.

Volvo On Call PIN code

The PIN code is used for security reasons to verify that a person is authorized to use Volvo On Call services in a particular vehicle. The four-digit PIN code, which is sent to the vehicle owner when the retailer activated the subscription, is used for security purposes to identify persons authorized to use certain Volvo On Call services such as remote door unlock via the Volvo On Call customer service center⁴ or to create an account for the Volvo On Call app.

If you have forgotten or want to change your PIN code

If the PIN code has been forgotten or needs to be changed (e.g. when buying a used car with Volvo On Call) contact

- a dealer or
- Volvo On Call service center⁴ via the **ON CALL** button, **Volvo On Call app** or a normal phone call.

The new code is sent to the car owner.

If an incorrect PIN code has been entered in the app multiple times

If an incorrect PIN code has been entered incorrectly 10 times in a row, the account will be locked. To use the app again, a new PIN code must be selected and a new app account created

following the same process used to create the previous app account.

- Remote Door Unlock and Remote Door Lock with Volvo On Call (p. 8)
- Comfort and control with the Volvo On Call app (p. 5)
- Change vehicle owner with Volvo On Call (p. 15)

Change vehicle owner with Volvo On Call

If the vehicle changes owners, it is important to cancel the Volvo On Call service.

Canceling the Volvo On Call service

If the vehicle changes owners, contact your Volvo retailer to cancel the service. The retailer will cancel the subscription and erase the service history. The service can also be canceled using the Volvo On Call app.

If the vehicle changes owners, it is important to reset all personal settings and user data in the vehicle to the original factory defaults. This is done via the Settings menu in the center display.

Starting the Volvo On Call service

If you purchase a previously owned vehicle with Volvo On Call:

The new owner should contact his/her Volvo retailer to transfer the remaining time on the subscription to the new owner. All contact details must be updated for Volvo On Call to function and to ensure the previous owner is no longer authorized to use Volvo On Call services in the vehicle. The new owner will be given a personal four-digit PIN code, which is required to identify the owner (or another authorized person) and verify authorized access to certain services.

⁴ Does not apply to type B Volvo On Call markets.

Backup battery for Volvo On Call

If the vehicle has no electrical current, the main battery is replaced with the Volvo On Call backup battery.

The backup battery has a limited lifespan. When the battery requires servicing or replacement, a message (**Volvo On Call Service required**) is shown in the instrument panel.

If the message persists, contact an authorized Volvo workshop.

Personal information and Volvo On Call

Personal information is gathered for use with the Volvo On Call service.

Volvo's sales companies (see the following table), and Volvo Car Corporation, are responsible for the personal information gathered in connection with the service. Volvo's sales companies are responsible for processing and storing Volvo On Call-related information. This information is treated according to legislation and regulations pertaining to data of this type.

Country	Sales company
USA	Volvo Car USA, LLC
Canada	Volvo Car Canada Ltd.

Why information is gathered

Personal information is used by Volvo and its partners to provide and develop the Volvo On Call service.

What types of personal data are processed?

The primary types of personal information gathered for Volvo On Call-related purposes are:

- Personal information that the customer provides in connection with the activation of Volvo On Call and during other contact with Volvo, including name, address, phone num-

ber, type of service and the duration of the service.

- When information about a specific Volvo On Call-related event is automatically transmitted from the vehicle. A message of this type contains: the vehicle identification number (VIN), time when the service is used, type of service, if airbags have been triggered, if the seat belt tensioners have been triggered, current fuel level, current temperature inside and outside the vehicle, whether the doors are locked and windows are closed and the vehicle's last six locations, including speed and direction.
- Other information associated with the owner/driver, such as telephone calls with people in the vehicle, the customer service center that provided the service and notes made by the customer service operator.

Access to my personal information

Volvo uses subcontractors in order to provide the service. These subcontractors work on behalf of Volvo and may only process personal data to the extent required in order to provide the service. All sub-contractors are bound by agreements requiring them to observe strict confidentiality and to treat personal details in accordance with applicable legislation.

Deleting personal information

The personal details required to provide the Volvo On Call service are stored during the subscription

period and thereafter for as long as necessary in order for Volvo to fulfill its obligations according to legislation and other regulations. Information generated during events covered by the Volvo On Call service is deleted three months after an event has occurred.

Corrections and register extracts

Private persons have the right to request corrections of incorrect information and to obtain an extract showing the personal information that has been processed. Requests for extracts from the register must be submitted in writing and signed by the applicant and include name, address and customer number. The request should be sent to:

Volvo Car USA, LLC
